

# VCM Series

## Vehicle Control Modules

### CA-VCM1 Socket Harness Assembly

InPower's VCM Series *Vehicle Control Modules* are a set of "tools" for the designers of vehicle electrical control systems. These solid state modules are designed to withstand the environments typically found on trucks, emergency vehicles, buses, coaches and speciality vehicles, and are available in a variety of standard and custom configurations and functions.

#### Technical Description

The InPower CA-VCM1 Socket Harness Assembly consists of a 5-pin socket with attached color coded wires. The socket is a universal automotive relay configuration with five sets of contacts. This socket fits the InPower Vehicle Control Module (VCM Series) products. Each wire is color coded, stripped and tinned.
